

## HD [Heavy Duty] Diamond Pads

### HD-COPPER DISCS

These new copper bond diamond tools offer outstanding results on concrete as the initial grinding steps, especially on big box store projects. They offer fast and aggressive cutting with a smooth scratch pattern.

- Work great with all machine sizes, incl. grinders, polishers and swing machines
- Use HD-Copper pads WET only!
- 3-inch diameter; velcro-backed; 50 to 400 grit
- Continue with HD-Resins, Nato® or V-Harris®.

### HD-RESIN PADS

The HD-Resins feature a special resin diamond bond and matrix, designed to withstand the weight of heavy grinders, and provide a great floor finish. Make sure you add weights if you are using these tools on lighter machines, such as 20-in & 25-in LAVINAs.

- Offered in 3 and 4 inch sizes; from 30 to 3000 grit
- Can be used wet or dry
