

# BREAK NEW GROUND WITH LAVINA POWER TROWELS

- ✓ superior balance
- ✓ powerful engine
- ✓ smooth operation

## SIX-FOOT RIDE-ON TROWELS READY TO GRIND AND POLISH AT INCREDIBLE RATES.

Equipped with 2 x 36" trowel pans and 4 x 13.2" Quick Change tool holders on each pan, transportation wheel, manual crank lift system, heavy-duty shroud, and more user-friendly features.

# TROWEL SHINE

POWER TROWEL CONCRETE POLISHING SYSTEM

by  SUPERABRASIVE

ADAPT YOUR TROWEL  
FOR POLISHING

IDEAL FOR LARGE  
INDUSTRIAL PROJECTS

INCREDIBLY HIGH  
PRODUCTIVITY

MINIMUM  
START-UP COST

## TROWEL SHINE SYSTEM

FREE SPINNING HEADS FOR OPTIMAL TOOL WEAR AND MACHINE BALANCE

FAST AND EASY TOOL CHANGES WITH LAVINA QUICK CHANGE TOOLS.

ENCAPSULATED BEARINGS - NO NEED FOR PERIODIC REGREASING.

**UPDATED HEADS!**

13.2" / 335MM, #A80.00.00

The Trowel Shine Tool Holders are installed onto the trowel floating pans. You can order ready to go trowel pans with pre-installed Trowel Shine tool holders, or you can install the tool holders yourself on your trowel pans. We provide a drilling template with each tool holder. For best results, the number of tool holders should match the number of blades on your power trowel, and they should be installed symmetrically, with no tools sticking out.

## TROWEL SHINE TOOLING OPTIONS

Trowel grinding and polishing is done **WET** - a proper slurry management method should be used. Evaluate the floor before selecting the diamond tooling. Since this is a wet process, make sure you order tools suitable for wet applications.

### GRINDING TOOLS

If grinding is necessary (damaged concrete, rain drop effect, etc.), you can start with SA- Superthick Metal Discs, Quick Change style, offered in 46, 70 and 120 grit.

Follow with HD-Copper Rings 50 & 100 grit to remove scratches and transition to resins. OR, you can use Waffel Resins 120 (wet bond) instead.

On flat floors / new construction, you can start with Waffel Resins, 50 (wet bond).

SA METALS

### HONING & POLISHING TOOLS

Our Waffel Rings are by far the best resin diamond pad for trowel polishing on the market in terms of life and performance. Waffels are offered in a full grit range from 50 to 3500 grit but typically you would use them in the steps between 200 and 800 grit.

After 800 grit, you can switch to V-Harr Rings (dry), OR, ShinePro Plus pads (dry).
